## Why Does Space Security Matter?

- Changing nature of the space domain
  - 3 "C's": Space is increasingly congested, contested, and competitive
- Goal: stable, predictable space environment
  - Will allow us to enjoyed continued benefits from use of and access to space

## **Threats to Space Security and Stability**

Promoting Cooperative Solutions for Space Sustainability

- Space weather
- Space debris
- Radio frequency interference
- Anti-satellite weapons (ASATs)

• *Types* of ASATs

Cold War history of ASATs

ASAT tests in the past five years

## **USG Space Guidance**

- Obama Administration's National Space Policy
- National Security Space Strategy
- 2012 Defense Strategic Guidance
- Overall: emphasis on international cooperation, responsible space behavior

#### **Our Methods**

- Informing: SWF generates research and analysis for decisionmakers to promote creation of sound policy and raise awareness of key issues that may threaten the security, sustainability and utility of outer space
- Facilitating: SWF convenes timely public and private meetings with stakeholders on key issues to encourage discussion and constructive dialog for next steps in support of its mission
- Promoting: When viable solutions or next steps become apparent, SWF formulates and disseminates policy positions that are aligned with its vision and mission in order to move them from idea to implementation

#### Where We Work

#### Permanent offices
